

## CHAPTER 5

### Harvested Commodities (Fruits and Vegetables)

---

*The procedures outlined in this chapter apply to regulated fruits and vegetables in regulated counties.*

#### **SECTION 1: TRAPPING AND INSPECTION**

**A** Inside the LBAM State Interior Quarantine or within 1.5 miles of a LBAM detection.

- (i) Biweekly servicing of traps at approved detection levels
- (ii) Inspection of production field or harvested regulated commodity at shipping location within 30 days prior to shipping
- (iii) Shipping locations in a quarantined county including produce dealers shall note that the Federal Quarantine Order does not regulate non-producing locations that ship regulated commodities. Shipping locations may voluntarily request certification from the county agricultural commissioner or the LBAM Project under the following procedures:
  - (a) Shipping locations must receive commodities from quarantined counties accompanied by a federal shield or other quarantine compliance certificate **OR**
  - (b) Shipping locations must make commodities available for periodic inspections as determined necessary by the county agricultural commissioner or the LBAM Project

**B** Outside the LBAM State Interior Quarantine or more than 1.5 miles of a LBAM detection

- (i) Trapping at approved detection levels

## **SECTION 2: PROCEDURES FOR LBAM INFESTED COMMODITIES**

*Under development. Please contact the LBAM Project for details.*

## **SECTION 3: COMPLIANCE AND CERTIFICATION**

- (i) All regulated fruits and vegetables grown inside the State Interior Quarantine or 1.5 miles of a LBAM detection moving **intrastate and within the quarantine area**, must be accompanied by quarantine certification. Shippers may be issued a compliance agreement and authorized to use the federal shield (**Exhibit F**) ([CDFA PHPPS extranet site](#))
- (ii) All regulated fruits and vegetables grown inside the State Interior Quarantine or 1.5 miles of a LBAM detection moving **interstate**, must be accompanied by a federal shield (**Exhibit F**)
- (iii) Non-producers located inside the State Interior Quarantine or within 1.5 miles of a LBAM detection shipping interstate and intrastate may be issued a compliance agreement, stipulating adherence to the procedures listed in Chapter 1, Section 4 (iv), and may be authorized to use a federal shield (**Exhibit F**) or master certificate of quarantine compliance
